

ALPENE GROUP

COMPANY PROFILE

Company commenced in
1963

Owners are:
Aldo Bertolissio
Peter Bertolissio
Neville Bertolissio

The 3 brothers started in Australia with Molocco Brothers at the start of the commercialisation of readymix concrete in 1960.

Peter was quick to learn that concrete placement was a developing trade and capitalised by focusing on this new construction method.

Working with companies like Molocco Bros and Specified Concrete back in 1963,

Peter and his brothers focused on building their quality of service and finishes to their customers.

Alpene operate their mobile and tower boom pumps with a well-managed in-house maintenance operation ensuring all equipment is in top class operating order daily.

The 3 brothers new to Australia brought energy & enthusiasm to the Sydney construction industry, through their service to provide efficient and cost effective **concrete placing & finishing.**

Today AlpeNE are one of the most notable and significant concrete placing companies in NSW.

AlpeNE have serviced companies such as Robert Wall back in the late 60's where AlpeNE supplied pumped and placed 1200m³ through 3 pumps 25 finishers all completed in 12 hours, the project was the fermentation tanks at the Lidcombe brewery.

Their Service offer is managed like a family with second generation playing an important part in the continued growth, learning from the old school from the tradition for top quality service and concrete finishes.
